The primary goals of the Silver Jackets program are to:

• Facilitate strategic life-cycle flood risk reduction,
• Create or supplement a continuous mechanism to collaboratively solve state-prioritized issues and implement or recommend those solutions,
• Improve processes, identifying and resolving gaps and counteractive programs,
• Leverage and optimize resources,
• Improve and increase flood risk communication and present a unified interagency message, and
• Establish close relationships to facilitate integrated post-disaster recovery solutions.

For important, life saving information please visit
http://www.nfrmp.us/state/index.cfm

Silver Jackets teams are collaborative state-led interagency teams, continuously working together to reduce flood risk at the state level.
